

2406ET13-F2

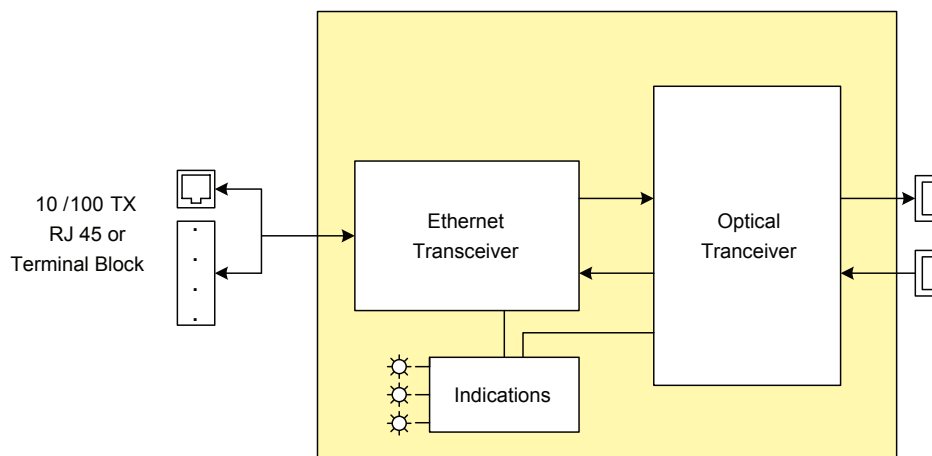

Industrial 10/100M Ethernet to Fiber Optic Converter

The 2406ET13-F2 is a rugged, industrial grade 10/100 Ethernet to fiber optical media converter. It provides an economical method of transmitting one 10/100BaseTX Ethernet channel or one 100BaseFX Ethernet channel over single mode optical fiber. The transceiver is IEEE 802.3 and IEEE802.3u compliant. The 2406ET13-F2 is auto-negotiating for half or full duplex and 10 or 100Mbps data rates. Used as a pair, the maximum end-to-end single mode fiber distance is 20km.

► Features & Benefits

- Enclosed in a rugged, rustless ABS housing
- Direct DIN-Rail or wall/panel mounting without using any unsecured brackets or adapters
- Converts 10/100BaseTX to 100BaseFX fiber optic links
- Transmits 10/100M Ethernet data over a long distance through fiber cables
- Auto-negotiation of speed and duplex mode on TX port
- LED Status indications
- Auto-MDIX on TX port
- Store-and-forward mechanism
- Single-mode fiber with SC connectors
- Built-in surge protection, static protection and circuit protection
- Surface Mount Technology manufactured to RoHS and ISO-9001 standards
- Safety: Strictly certified by TUV (Cert No. SG-CE-100005; SG-FCC-100002)
