

MAGNUM ROUTER-VCP

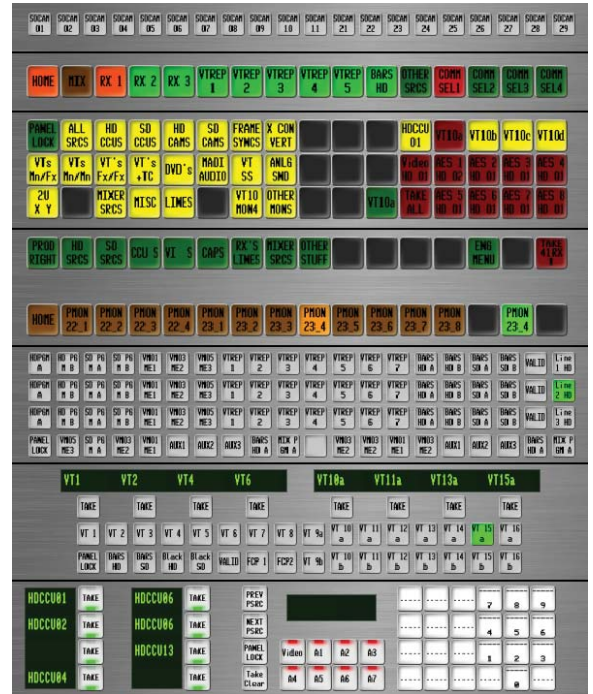

MAGNUM-ROUTER-VCP is a software based virtual control panel client that can be installed on Windows or MAC computers. MAGNUM-ROUTER-VCP emulates a software version of any of the Evertz 'simple' router control panels, with the exception of the CP-2272E, CP-1040E, CP-1024E. The virtual control panels are programmed and function exactly as the physical control panels they emulate. MAGNUM-ROUTER-VCP requires a licensed MAGNUM-ROUTER or MAGNUM-ROUTER-SS controller.

► Features and Benefits

- Ethernet based
- All Evertz 'simple' router panels available except CP-2272E, CP-1024E, CP-1040E
